Report Guide Number of items circulated based on date created

Purpose of the Report

This report shows circulation numbers for items with a specific combination of owning library, shelving location and creation date between specified checkout dates. This report can be used to show the performance of new materials by specifying that only newly created items should be included in the report.

Running the Template

1. Enter a unique title in the "Report Name" field.

3. Select the Checkout Date time frame you would like the report to include. The resulting report output will only show items with a checkout date within the chosen time frame.
