

Report Guide

Number of items circulated based on shelving location

Purpose of the Report

This report shows circulation numbers for items with a specific combination of shelving location and checkout dates. This report can be used to show how many items are circulated anywhere in the consortium from shelving locations at your library. NOTE: The reporter tool only allows users to run reports on Shelving Locations available at the library where their workstation is registered. For example, if you're using a workstation registered to Library A, you can only run reports on materials assigned to Library A's Shelving Locations, even if another library also has a Shelving Location with the same name.

Running the Template

1. Enter a unique title in the "Report Name" field.

Report Name:	
--------------	--

2. Select the folder where you wish to save the report.

Choose a folder to store this report definition:	Selected Folder: <ul style="list-style-type: none"> Report Folders Kyle Monthly Collection Statistics Sara's Reports
--	---

3. Select the Checkout Date time frame you would like the report to include. The resulting report output will only show items with a checkout date within the chosen time frame.

Column	Transform	Action	User Params
Circulation -> Checkout Date/Time	Date	Between	Real Date <input style="width: 80px; background-color: red;" type="text"/> - And - Real Date <input style="width: 80px; background-color: red;" type="text"/>

4. Select the Shelving Locations you would like the report to include. To select more than one, you can hold the Control key while clicking on the names or simply add them one at a time.

Circulation -> Shelving Location -> Location ID	Raw Data	In list	<div style="border: 1px solid blue; padding: 5px;"> <ul style="list-style-type: none"> Adult Fiction Adult Non-Fiction Rinnranhv <div style="border: 1px solid blue; width: 100%; height: 40px; margin-top: 5px;"></div> </div>
---	----------	---------	--

5. Select the type of output you want to receive in the end.

Output Options

- Excel Output
- CSV Output
- HTML Output
 - Bar Charts
 - Line Charts

6. Select the folder where you wish the output file to be saved.

Choose a folder to store this report's output:

Selected Folder:

- Output Folders
 - Kyle
 - Monthly Collection Statistics
 - Sara's Reports

Viewing the Output

1. Navigate to the folder where you saved the output.
2. Check the box next to your report.

Select All None	report
<input type="checkbox"/>	Tag Test 2
<input checked="" type="checkbox"/>	Tag Test

Understanding and Using the Report Output

The resulting output for this report has columns for Shelving Location when circled, Owning Library, Circulating Library, and a Count of circulations. Some sorting may be necessary in your spreadsheet program of choice in order to parse the data effectively.
