

# Report Guide

## *Number of items circulated based on statistical category*

### Purpose of the Report

This report shows circulation numbers for items with a specific combination of owning library, statistical category and checkout dates. This report can be used to show how many times items with a specified statistical category have circulated. One common use for this report is to track circulation of grant-funded collections or materials purchased with donated funds. NOTE: In order to use this template for that purpose, a specific statistical category must be assigned when the materials to be tracked are cataloged.

### Running the Template

1. Enter a unique title in the "Report Name" field.

Report Name:	<input type="text"/>
