Report Guide
Number of renewals and total circs based on library and shelving location

Purpose of the Report

This report shows circulation numbers for items with a specific combination of owning library and checkout dates. This report can be used to show circulation stats including the number of circulations that were renewals.

Running the Template

1. Enter a unique title in the "Report Name" field.

2. Select the folder where you wish to save the report.

3. Select the Checkout Date time frame you would like the report to include.The resulting report output will only show items with a checkout date within the chosen time frame.

4. Select the Owning Libraries you would like the report to include. To select more than one, you can hold the Control key while clicking on the names or simply add them one at a time.

5. Select the type of output you want to receive in the end.

Output Options

- ☑ Excel Output
- ☐ CSV Output
- ☑ HTML Output
  - ○ ☑ Bar Charts
  - ○ ☐ Line Charts

6. Select the folder where you wish the output file to be saved.

Choose a folder to store this report's output:	Selected Folder: ⬇📂 Output Folders ➡📁 Kyle 📄 Monthly Collection Statistics 📄 Sara's Reports

Viewing the Output

1. Navigate to the folder where you saved the output.
2. Check the box next to your report.
